## Samoset Resort Annouces Youthlinks donation program

Rockport ME (March 4, 2005) -- Ink cartridges at the Samoset Resort have found a new home thanks to Youthlinks of Rockland. The resort will recycle their ink cartridges through Youthlinks with all proceeds being given back to operate their program.

Youthlink's EarthTeens run a successful inkjet cartridge recycling program with convenient drop off points in the community. Postage-paid inkjet cartridge mailers are available to consumers who contact the organization. Through the EarthTeens program, participants learn small business skills and provide a lasting service to the community.

For more information about Youthlinks, or EarthTeens, call Alice Shea, Program Manager, at 594-2221 in Rockland.
